## OptiClear

### GLASS AND PLASTIC PARTS CLEANER

#### **Description:**

OptiClear is a non-streaking foam action glass and plastic parts cleaner that contains no harmful abrasives or unpleasant harsh ammonia odors. Developed and formulated to penetrate and dissolve deposits of dirt, film and oily stains on glass, mirror and plastic surfaces. Widely used for industrial, institutional and other commercial applications.

#### **Benefits:**

Easily penetrates and removes deposits of dirt, weather & smoke films, insect remains, protective coating residue, grease, oil, fingerprints, smudges, and lipstick. OptiClear does not streak, contains no abrasive agents, non-irritating, non-toxic, non-flammable, and can be purchased in bulk or convenient aerosol. Fast acting formulation works on contact and dries to a residue free finish when wiped with a clean dry cloth.

#### **Directions:**

Shake container well, and remove cap. Hold can 10 to 15 cm away from surface. Always spray away from face. Wipe clean and polish with a clean dry cloth.

#### Physical Properties

Type.....	Non-streaking compound cleaner
Colour.....	White Foam
Odour.....	Sweet
pH factor.....	Neutral
Flammability.....	Non-flammable
Toxicity.....	Non-toxic
